Drainage	Built in Water Management	Weep holes
Tenting	N/A	Typical
Typical Flashings	N/A	All floors, all openings
Nighttime Protection & Plastic	N/A	Constant
Lifts	Mechanical and hydraulic lifts	Staging

*With Desana you have 75% less clay and 95% less mortar. You eliminate the staging areas with barrel mixers, hoses, wheel barrows, equipment, and maintenance. You can work from lifts and not worry about setting/moving staging. No more worry about blocked weep holes or netting. No slippery mud to worry about. And you still provide a higher performing wall assembly.*
